SHARON AMAN | DEVOPS ENGINEER

PROFESSIONAL SUMMARY

Detail-oriented DevOps Engineer with 3 years of experience designing scalable infrastructure and automating deployments across Azure and AWS. Proficient in CI/CD pipelines using Azure DevOps, GitLab, and Terraform. Skilled in containerization and orchestration with Docker and Kubernetes, ensuring high availability and resilience. Experienced in managing both Windows and Linux environments with a focus on automation, system reliability, and performance optimization.

PERSONAL INFO

Email : sharonaman01@gmail.com

Contact : +91 7034145431

Location: Kollam, Kerala, India

D.o.B: 04/05/2000

Nationality: Indian

Passport No: W1701778
(Expiry: 25/05/2032)

COMPETENCIES

- Proficiency in multiple programming languages
- Ability to analyze complex problems
- Strong ability to collaborate with cross-functional teams
- Expertise in Agile methodologies
- Better coordination and communication skill

LANGUAGES

- English, Malayalam, Tamil

OTHER CERTIFICATIONS

- DEVSECOPS AND CLOUD DEVOPS | DEVOPSSHACK | **2024**
- ULTIMATE DEVOPS BOOTCAMP | UDEMY | **2024**
- GITLAB CI/CD: ARCHITECTING, DEPLOYING, AND OPTIMIZING PIPELINES | KODEKLOUD | **2023**
- GCP DEVOPS PROJECT & AMAZON ECS | KODEKLOUD | **2023**

PROFESSIONAL EXPERIENCE

DEVOPS ENGINEER
MARIAPPS MARINE SOLUTIONS, KERALA, INDIA | 11/2024 – PRESENT

- Automated CI/CD pipelines across 100+ environments using Azure DevOps for consistent and reliable deployments.
- Deployed and managed applications on Windows Servers with IIS integration.
- Orchestrated Dockerized workloads using AKS and Azure Container Registry (ACR) in cloud environment.
- Improved system stability and performance through proactive monitoring and automated deployment workflows.

DEVOPS ENGINEER LEVEL 1
TEGAIN PRIVATE LIMITED,KERALA, INDIA | 03/2023 –11/2024

- Optimized cloud infrastructure leveraging AWS services to enhance availability and reduce downtime.
- Developed and maintained automated CI/CD pipelines using GitLab and Terraform.
- Integrated monitoring tools like Prometheus and Grafana for real-time insights and alerting.
- Deployed scalable microservices across AKS and EKS.
- Containerized and managed Python/Django applications on Ubuntu systems using Docker.

EDUCATION

MASTER OF SCIENCE – COMPUTER SCIENCE
UNIVERSITY OF KERALA | 2022 – 2024

BACHELOR OF SCIENCE - COMPUTER SCIENCE
UNIVERSITY OF KERALA | 2018 – 2021

TECHNICAL SKILLS

- **Cloud Platform:** Azure Cloud, AWS, DigitalOcean, GCP
- **CI/CD Tool:** Azure DevOps, GitLab CI/CD, GitHub Actions
- **Build Tool:** Maven
- **Containerization Tool:** Docker
- **Container Management Tool:** Azure Kubernetes Service, Elastic Kubernetes Service, Kubernetes
- **Source Code Management:** Git, TFS
- **IAC Tools :** Ansible & Terraform
- **Monitoring:** Grafana, Prometheus, CloudWatch, Kibana

DECLARATION

"I hereby declare that the above information is true and correct to the best of my knowledge and belief"

Sharon Aman

- **Web Servers:** Apache, Nginx, IIS
- **Ticketing Tool:** JIRA
- **Artifact Management Tool:** Nexus3 & Azure Artifact
- **Security & Code quality check Tool:** Sonarqube, Owasp, Trivy, Prowler
- **Operating Systems:** Windows, Linux

INTERNSHIPS

FULL STACK JAVA DEVELOPER (INTERN)
KOMPETENZEN TECHNOLOGIES, KERALA, INDIA | 10/2022 – 05/2023

SOFTWARE TESTER
GBS PLUS PRIVATE LIMITED, KERALA, INDIA | 08/2021 – 01/2022

PROJECTS

1. **ERP System Deployment for Ship Management (Office & Vessel)**
   - Deployed ERP systems for 100+ clients using Azure DevOps CI/CD pipelines.
   - Automated build, artifact upload, and deployment to IIS via Azure Release Manager.
   - Utilized the computation method for seamless vessel-side updates.

2. **Booking Application Deployment on AWS (ECS Fargate + Azure DevOps)**
   - Deployed a Flask-based booking app with 7 microservices on ECS Fargate.
   - Used Azure DevOps for CI/CD, Terraform for provisioning, and ECR for container storage.
   - Integrated ALB, RDS PostgreSQL, S3, CloudWatch, Kibana, and Grafana for full-stack monitoring and logging.

3. **Commerce Platform Deployment on Azure Kubernetes Service (AKS)**
   - Deployed an e-commerce app with 10 Dockerized microservices across 2 AKS clusters (demo & production).
   - Used Terraform and Azure DevOps (classic editor + Release Manager) for CI/CD.
   - Integrated Prometheus and Grafana for real-time performance monitoring.

4. **Boardgame Java Project Deployment on AWS**
   - Deployed a Dockerized Java project using AWS ECR for image storage and AWS EKS for orchestration.
   - Automated CI/CD with GitLab and Terraform.
   - Integrated SonarQube and Trivy for code quality and vulnerability scanning.
